

## Welcome to our December Newsletter!

Dear Reader,

As we approach the end of 2023, we want to take a moment to express our heartfelt gratitude for your continued support and loyalty throughout the year. It has been a pleasure serving you and we are truly grateful for the trust you have placed in us.

As we look back over the past year, we are reminded of the wonderful relationships we've built, shows we have attended and new product developments which we have implemented. Your satisfaction remains our top priority and we are committed to continue providing the highest levels of service. Thank you again for being part of our 2023 journey.

Wishing you a Merry Christmas and Happy New Year

Warmest Wishes,  
Chris Hansford

## New: Updated HS-420 Series due for release soon!

Due for release in Spring 2024 our updated HS-420 top exit series will be available for purchase and distribution.

After much development, testing and innovation we believe we have created a worthy successor to the world-renowned HS-420. Lighter weight, smaller in size and keeping the high performance our customers expect.

Many of the technical details will remain the same, however please click below to see the latest data sheets on our website.

**Events & Exhibitions for 2024**

It has been a pleasure to attend so many exhibition this year, most recently the 3 days of IMC in Florida.

We look forward to another busy schedule for 2024, seeing new and old faces and exhibiting in countries which we return to for the first time in many years.

Our ever-popular HS-104 sensors are on showcase this month.

For more information on our 2024 schedule please visit the link below

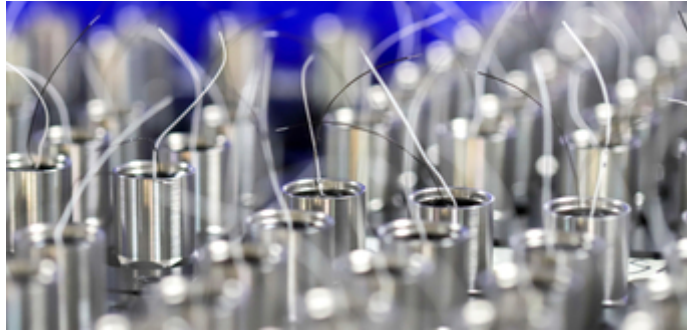

This is range which has several applications, the most popular of which being the -24V Negative supply.

We continue to build on this product and look forward to another positive year.
