Triaxial Sensor mounting on curved surfaces

Embracing the rising demand for Triaxial sensors, we've noticed a growing interest in mounting them on curved surfaces. To cater to this need, we proudly offer a selection of Pole Piece Magnets designed specifically for such applications.

The process is effortlessly streamlined – just position the magnet in place, utilize the built-in Triaxial sensor bolt and locating pin for precise alignment, and unlock the potential for seamless 3-axis measurements in locations that were once challenging. For more details, explore these innovative magnets on our website through the link below!
